

Oshae Alexis

Acworth, GA | 4045284978
oshaealexis1206@gmail.com

Digital Systems Strategist

<https://www.linkedin.com/in/oshae-alexis/>

Software Engineer and solutions-focused consultant with experience turning complex business needs into practical technical solutions across SaaS, web platforms, AI workflows, learning systems, and client operations. Skilled at understanding stakeholder goals, identifying workflow gaps, translating requirements into clear solution plans, and connecting technical execution to business value. Background includes software engineering, technical discovery, platform implementation, client communication, go-to-market support, and AI-assisted product prototyping. Strong fit for Solutions Engineer, Solutions Consultant, Customer Engineer, Implementation Consultant, Sales Engineer, and technical GTM roles that require someone who can understand the problem, design the solution, explain the value, and support implementation.

Experience

Collocate LLC | GA, Acworth

Founder & Solutions Consultant | 01/2018 - Present

- **Lead client discovery and requirements gathering** across web, learning platform, AI workflow, digital operations, and client communication projects.
- **Translate ambiguous business problems into structured solution plans**, including user flows, platform architecture, content systems, automation logic, implementation steps, and adoption messaging.
- **Design and implement customer-facing digital experiences** using Wix, Wix Studio, LearnWorlds, AI tools, automation platforms, and modern web workflows.
- **Advise clients on go-to-market positioning**, product messaging, service packaging, audience targeting, and conversion-focused website strategy.
- **Manage ongoing client relationships** by prioritizing scope, gathering feedback, troubleshooting implementation gaps, and iterating solutions based on stakeholder needs.

Association of Independents in Radio (AIR) | NY, New York

Digital Learning Platform & Content Operations Consultant | 11/2024 - Present

- **Support SoundPath learning platform operations** by improving course structure, webinar pages, learner-facing assets, program communications, and content publishing workflows.
- **Restructure digital learning experiences** to make programs easier to navigate, easier to maintain, and better aligned with member and learner needs.
- **Collaborate with internal staff** to clarify requirements, translate program goals into platform updates, and support recurring digital communications and promotional assets.
- **Identify content bottlenecks, workflow gaps, and opportunities** to improve platform usability, learner experience, and operational consistency.

SFx Tactical | GA, Atlanta

GTM & Technical Strategy Consultant | 01/2026 - Present

- **Partner with founder and stakeholders** to translate a patented hardware and data technology concept into clearer product architecture, investor messaging, and market-facing narratives.
- **Develop solution framing for an ecosystem** involving device telemetry, custody tracking, structured data records, analytics, and enterprise system access.
- **Create messaging and digital strategy** that explains complex hardware, software, and data infrastructure concepts to non-technical stakeholders, investors, and potential partners.
- **Help define go-to-market use cases** for high-accountability environments requiring visibility, tracking, compliance, and operational accountability.
- **Support strategic product positioning** by connecting technical capabilities to business value, implementation needs, and market adoption.

Spring Health | NY, New York

Software Engineer | 02/2022 - 07/2024

- **Contributed to the development, improvement, and maintenance** of a mental health technology platform supporting users, internal teams, and operational workflows.
- **Supported front-end and back-end feature development** while collaborating across product, operations, and engineering teams.
- **Translated product and operational requirements** into technical implementation plans, platform improvements, and scalable product updates.
- **Collaborated cross-functionally** to troubleshoot customer-facing issues, clarify technical requirements, improve documentation, and support reliable product delivery.

Technical Skills

- **Languages & Frameworks:** JavaScript, TypeScript, React, Next.js, Tailwind CSS
- **Tools & Platforms:** GitHub, Vercel, Wix, Wix Studio, LearnWorlds, Google Workspace, Calendly
- **AI & Automation:** ChatGPT, Claude, Perplexity, OpenAI API, Anthropic API, Vercel AI SDK, n8n
- **Business & GTM:** Client presentations, landing pages, product messaging, newsletters, user journeys, workflow documentation, analytics tags
